I think it's a good idea. Even if its brief. I suspect there will be real time questions related to the HHRA so that would make it a little less awkward with it being a 5 min discussion. I also think Chuck will have material to add to the slides.

Yes, likewise I would like to present the eco results too...always better having EPA people present to CSTAG instead of our contractors. I will take a look at the slides and modify if needed.

Hi Diane,

I would be interested in presenting the risk assessment results. I'm concerned that the current presentation regarding risk is not clear. I'll work on a slide and send it to you by Monday.

Thanks.

Marian

Hello I am sending you the CSTAG presentation. It is not the latest version since I don't have that, but the risk assessment slides have not changed. It is only about 5 slides. Please take a look and let us know if it is enough or needs more or if either of you would like to present. We are up in the air about that right now. Keegan of CDM could do it as he presents the surrounding slides or one of you. Please let me know your thoughts.

Thanks
